# 1 General Description

## 1.1 Product Description

MOKO 8 channels gateway MKGW2 is based on LoRaWAN protocol, which is embedded with Semtech's high performance multi-channel transceiver SX1301/SX1257 and MTK platform. It is for indoor use and easy for installation.

MKGW2-LW includes 2 modes: AP and STA as router, offers 2.4Ghz Wi-Fi and wired Ethernet for connecting internet. The gateway built-in OpenWRT operating system, users can flexibly configure network parameters and LoRaWAN protocol parameters through the Web management platform.

The MKGW2-LW Gateway can be connected to LoRaWAN terminals in various application nodes, collects useful information and sends the data to cloud server. And it supports POE, DC, Micro USB to provide power supply.

## 1.2 Product Features

- Support LoRaWAN Protocol: Class A and Class C
- Can integrate with both private and public(TTN) Network Servers
- Support WiFi 2.4GHz, compatible with WLAN 802.11b/g/n
- 100Mbase-T Ethernet with POE
- AP and STA mode as router
- Configurable via WIFI
- WEB interface for related configuration and status view
- Support one key reset
- Support download log
- Support upgrade firmware by OTA or USB
- 1xLoRaWAN Antenna, 1xWIFI Antenna
- Indoor operation temperature
- Easy for install

## 1.3 Application

- Smart home, Smart hotel, Smart building and Smart city
- Wireless sensor network
- Wireless remote meter reading

- Indoor smart parking solution
- Environment monitor

## 2 Specifications
